

# Engaging Students in Citizen Science During Distance/Hybrid Learning 2020-2021

## Opportunities:

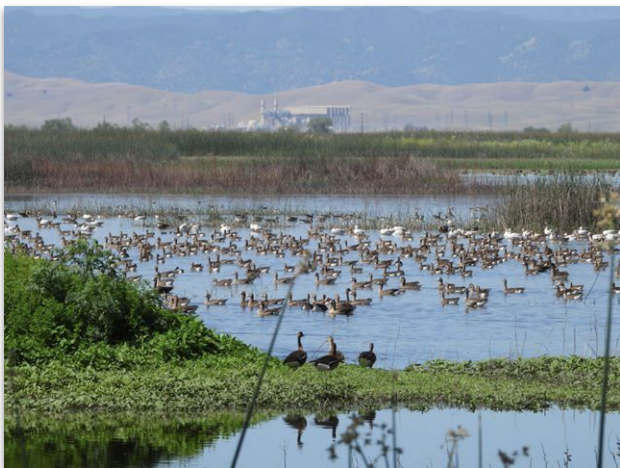

Join your fellow Gear Up Teachers and Advisors in engaging your students in Citizen Science. We will explore ways in which citizen science supports Gear Up goals by allowing students to contribute meaningful data and engage with the scientific community.

**Who:** Gear Up Teachers and Advisors

**When/Where:** January- May Virtual Conferences via Zoom

### What:

- Monthly professional development through the UC Davis Center for Community and Citizen Science
- Monthly Advisor lead or supported lessons
- Monthly check ins, lessons, and virtual field trips with the Sacramento National Wildlife Refuge
- Engagement and lessons by the UC Davis Behavioral Science Department, working with students on writing and publication of their findings

## Schedule:

Professional Development- Starting in January, February, March

Engagement with the SNWR- monthly Jan-May

Opportunities for Student Presentation/Outreach through Ethnography
