

Sutter NWR New Wildlife Observation & Photography Area

From February 15 - June, a new area will be available for visitors in the southern half of the Refuge.

Your journey will begin in parking lot B which is located off the southern end of the Bypass Levee or 1/2 mile north of O'Banion Road.

Gather more information including a brochure at the kiosk. All visitors must sign the register.

Begin your journey by going up and over the levee and across the bridge as you are greeted by cliff swallows.

As water levels recede, an abundance of shore-birds and wildflowers will scatter the landscape.
