

Stillwater National Wildlife Refuge Public Use Map — updated June 2014

North part of refuge expected to be dry most of 2014, with possible spill water to S. Nutgrass unit. Sanctuary south of Division Rd. will have less than 40% water to maintain migratory bird habitat. Best wildlife viewing will be from Foxtail tour loop, Tule Trail and E Division Rd.

Foxtail Lk driving tour loop
6.5mi one way; enter across
from Stillwater Pt parking area.

Map Note: DRY wetlands are being prepared for
vegetation control, habitat management, and
structure improvements 2014-2015 season.
