

11 Moffett Bay Trail

*2.25 miles
one way from
the Bay Trail
that begins at
the Sunnyvale
Water Pollution
Treatment Plant.*

*A chemical toilet
is available at
the Carl Rd
trailhead.*

Trail Surface

Flat, compacted gravel levee.

Additional Uses

From Carl Rd. Trailhead: Waterfowl hunting in designated areas within the salt ponds is permitted mid-October to late January. Check signs and refuge website for exact dates.

Highlights

Connects the Bay Trail from the Sunnyvale Water Pollution Treatment Plant to Mountain View via a walking and biking trail. This is one of the best places to see waterfowl in the winter.

Connections to Other Trails

Connects with Stevens Creek East Trail, Stevens Creek Trail, and Shoreline at Mountain View.

Directions to Trailhead

From HWY 880 or HWY 101, exit HWY 237 to Alviso. Exit Caribbean Dr. and head north. Turn right on Borregas Ave. At the stop sign in front of the water pollution treatment plant, take a left onto Carl Rd. and park in the far parking lot.

12 Stevens Creek East Trail

0.9 miles
one way

Trail Surface

Flat, compacted gravel road. Can get muddy after rain.

Additional Uses

Trail is used by waterfowl hunters to access hunting blinds within the salt ponds mid-October to late January. Check signs and the refuge website for exact dates.

Highlights

One of the best places to see waterfowl in the winter. At the end of the trail during low tide, hundreds of shorebirds can be seen feeding in the mudflat.

Connections to Other Trails

Connects to the Bay Trail system via Moffett Bay Trail, Stevens Creek Trail, and Shoreline at Mountain View.
