Please note that in the event of severe weather, i.e. thunderstorms, this tour will be canceled. These are FREE events and open to the public.

The U.S. Fish and Wildlife Service is the principal federal agency responsible for conserving, protecting and enhancing fish, wildlife and plants and their habitats for the continuing benefit of the American people. The Service manages the 150-million-acre National Wildlife Refuge System which encompasses more than 550 national wildlife refuges, thousands of small wetlands and

other special management areas. It also operates 66 national fish hatcheries, 64 fishery resource offices and 78 ecological services field stations. The agency enforces Federal wildlife laws, administers the Endangered Species Act, manages migratory bird populations, restores nationally significant fisheries, conserves and restores wildlife habitat such as wetlands, and helps foreign governments with their conservation efforts. It also oversees the Federal Aid program that distributes hundreds of millions of dollars in excise taxes on fishing and hunting equipment to state fish and wildlife agencies.

For further information about refuge programs, please visit our website at [www.fws.gov/midwest/shiawasee](http://www.fws.gov/midwest/shiawasee) or call Green Point Environmental Learning Center at (989) 759-1669.
