ALTERNATIVE B WOULD ELIMINATE MORE IDEA FOR
HUNTERS SO THIS WOULD PUT MORE PRESSURE ON
THOSE OF US WHO HUNT. I WOULD FAVOR ALTERNATIVE
C OVER ANY OF THE OTHERS. I WILL COMMENT
MORE VIA EMAIL.

Thanks

Comment:

Having attended the meeting in Bradley county and expressing our wishes, I also wanted to put it in writing. I would like to see a combination of all 3 objectives. The water level in objective C with one difference. I'd like to raise the water 2 tenths a day beginning Dec. 15th until 68 msf is reached and drop one tenth a day beginning Jan. 15th. I'm in favor of the one foot drawdown every 3 years. I am not in favor of anymore ATV/UTV trails being closed. Thanks for taking our wishes into consideration.

Comment:

I don't want anything changed but you change the water level during duck season

WM

I don't want to increase the size of Refuge at all.
