

Kenai National Wildlife Refuge Hidden Lake Campground Host Program 2015

Thank you for your interest in the Campground Host program at the Kenai National Wildlife Refuge for the summer of 2015! ☺

We have a very busy summer season and seek friendly, excited and capable hosts to welcome our visitors to the Hidden Lake Campground on the Refuge. This is dry camping at its finest. Wildlife abounds and fishing opportunities are excellent in the nearby Kenai River. Our camp host site is roomy and comfortable with access to potable water hand pumps. Note: There is no electricity and limited cell phone service in the area.

Job Responsibilities: Hosts help visitors in a variety of ways. They share Refuge wildlife, recreation, and regulatory information with visitors. They maintain campground facilities including cleaning restrooms, litter pick up, and facility maintenance. Hosts also sell firewood bundles, and assist with site availability records.

Hosts work a 40-hour workweek (usually five work days with two days off). Often work day shifts are split with hosts working mornings and evenings when visitors are most frequently in the campgrounds. The campground is busiest Thursdays through Sundays, Holiday weekends, and when the fishing is at its peak in the Kenai River. Host hospitality leaves a positive memory for Refuge visitors.

Dates Needed: Mid-May to Labor Day (approximately May 13- September 7, 2015).

Compensation: Through a Refuge Volunteer Agreement, hosts are reimbursed expenses for food, propane, generator gas and laundry. Hosts provide their receipts and are reimbursed up to \$150 per person per week (\$300 per couple per week). The Refuge provides a free campsite for hosts in a designated location within Hidden Lake Campground (Ridge Loop #2).

Hidden Lake Campground Facility includes - 43 pull-in campsites, 5 overflow self-contained campsites; 5 outhouses facilities with 10 toilets total; 2 picnic shelters; a boat launch; 5 hand water pumps; a campfire amphitheater; an information/camper registration kiosk, a dump station, and 2 garbage dumpsters. Campsite cost for visitors is \$10 per night for all established camp sites. There are no day use/boat launch fees. The Interagency Federal Senior/Access passes allow for 50% reduction of camp fees.

What to Expect: Hidden Lake Campground is located at mile 3.6 along Skilak Lake Rd., a 2-lane gravel road. This road forms a 19-mile loop off the Sterling Highway, a modern asphalt paved highway.

Soldotna (population-4,000) is the largest town nearest the two campground locations and provides large grocery stores and a variety of retail stores. It contains a hospital, fire station, police station, and state trooper headquarters. There are restaurants, laundry services, shower facilities, banks, a post office, churches, a library, and movie theaters.

The smaller communities of Cooper Landing (east of the Refuge) and Sterling (west of the Refuge en route to Soldotna) provide the following services - post office, gas station, towing (Sterling only), restaurants, motels, mini-marts, churches, laundry, and showers. Like many Alaskan campgrounds Hidden Lake has no running water or electrical hookups. There are hand pumps for potable water. Potable water (pumped through a hose) can also be obtained in Cooper Landing, Sterling, and Soldotna.

Hidden Lake Campground has a dump station in the campground.

The Refuge provides a satellite phone and handheld radio for Refuge business and communications. Having your own cell phone is desirable for personal communications.

Hosts are supported by field rangers, law enforcement officers, maintenance workers, and contracted dumpster and toilet pumping services. Hosts are supplied with all the necessary supplies and equipment to maintain their assigned campground.

Training: A visitor services ranger will provide training for host campground duties. A required seasonal orientation takes place in mid-May where hosts receive orientation to Refuge operations and a variety of safety training sessions including CPR and First Aid.

Climate: May through early September temperatures range from low 30's (nights) to mid-70's F (days). Expect rainy weather off and on during summer months especially in late August and early September.

Bears: Both black and brown bears travel through Hidden Lake Campground. Bear proof dumpsters are provided for garbage. Hosts and rangers must work continuously to educate visitors regarding clean camping practices to prevent curious bears from becoming problem bears.

Natural History: Hidden Lake was glacially carved. Dramatic mountains and cliffs surround this beautiful lake. High winds (usually in the late afternoon) can be expected causing the lake to potentially become rough. White spruce and birch forests are the dominant vegetation with wild flowers at their peak in mid-June. Expect abundant mosquitoes especially in early June. Moose, eagles, red squirrels, snowshoe hares, ravens, loons, songbirds, and short tailed weasels are common campground visitors. Bears, coyotes, wolves, and lynx are seen over the course of the summer.

Our Expectations: We are looking for friendly, energetic couples that want to volunteer in Alaska and appreciate the importance of our public land heritage. Hosts need to be able to provide their own reliable motor home or truck/trailer combo for housing and transportation. Hosts need to provide their own generator or solar panels for electrical needs. Hosts are responsible for setting up their own postal service through General Delivery in Soldotna, Sterling, or Cooper Landing. A personal cell phone is recommended for private phone call needs. The Refuge supplies all other items needed for the position.

To apply for host positions, please contact Michelle Ostrowski at:
