

Grazing Plans 2021
South Mundt NWR
Gregory County

<u>Location:</u>	<u>Unit</u>	<u>Dates</u>	<u>Acres</u>	<u>AUMS</u>
<u>South Mundt NWR</u> 95-65-34	A	4/25 – 5/18	183	165.60

Stocking rate 2021

Graze unit A 180 cow/calf pairs for a max of 23 days starting any time after April 20, 2021 and ending no later than May 20, 2021

Requirements

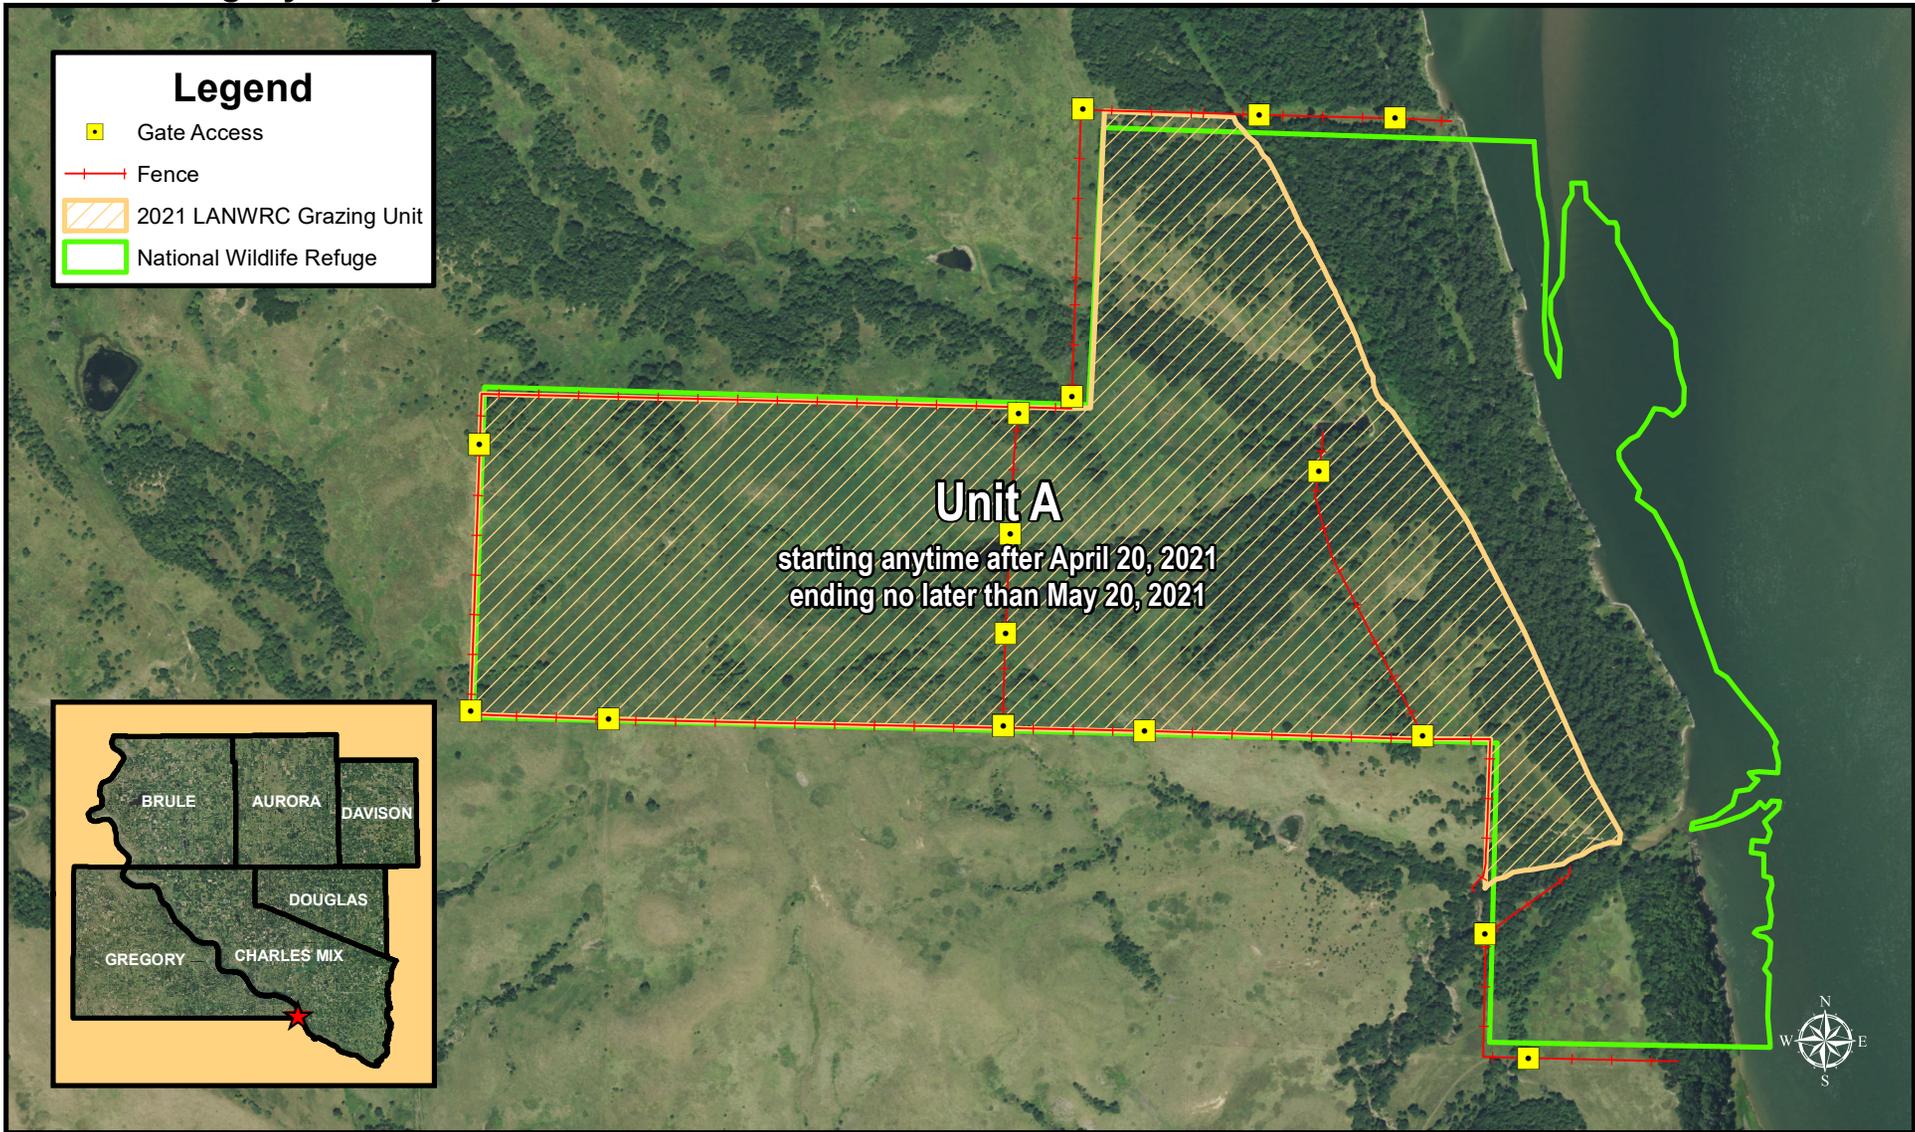

The permittee will be required to maintain all fences. Materials needed to repair the permanent fence will be supplied by the Refuge. Temporary electric fencing may be used in places and must be removed immediately after grazing. The refuge will not supply temporary fencing. To meet the goals of this plan and our habitat improvement objectives, moving livestock on the above mentioned dates is **critical**. Deviations from these move dates without manager notification will have negative impacts on future grazing opportunities.

Special Note: We will be limited by access to the unit; therefore, any potential cooperator would need to be adjacent to the unit in order to get cattle on to the unit. Pay particular attention to **water conditions and fence conditions** and inspect the units prior to bidding.

Provide a bid based on the entire grazing period. Please contact Liz Julian at 605-487-7603 with any questions.
