Texas Point National Wildlife Refuge

Texas Point National Wildlife Refuge Waterfowl Hunting Permit 2014-2015

Waterfowl hunting has a deep history and tradition on Texas Point NWR. Most hunting opportunities are in wetlands along bayous that cut through ancient floodplains which create coastal marshes and prairies. These habitats are home to an abundance of wildlife including migratory waterfowl. We recommend against going into the marsh alone until you are thoroughly familiar with the hazards. Some of the marsh is dangerously boggy and home to alligators, venomous snakes, mosquitoes and fire ants.

The Texas Point NWR hunting unit is made up of one large hunting unit with two main hunter access points; the Cattle-walk and the Texas Bayou boat ramp. The hunting unit is open on varied days of the week; see specific details below for information on open hunting days and locations of hunter access points. All hunting units are **CLOSED** on *Thanksgiving Day*, *Christmas Day* and *New Year's Day*. We ask that hunters be good sportsmen and respect the rights of other hunters afield. Sky-blasting flares game, leaves cripples and disrupts other hunters. Allowing birds to decoy increases your hunting success. Hunting of ducks, geese and coots on Texas Point NWR is **ONLY** permitted in accordance with all federal, state and local laws; in addition to, signs designating open hunting areas and special hunting regulations outlined in this hunting permit brochure below.

Open for Hunting: Special Teal Season 7 days a week. Regular Waterfowl season dates: open Saturday, Monday and Wednesday.
