

Topographic maps of Togiak National Wildlife Refuge may be purchased from many retailers, or online through the U.S. Geological Survey's website.

Maps of Togiak Refuge fall within the Goodnews Bay quadrangle. The one inch to a mile (1:63,360) series provides a good level of detail, but makes it necessary to purchase more than one map for most Togiak Refuge rivers.

Maps on this scale for the most frequently visited drainages are as follows:

- Kanektok River:
D-3, D-4, D-5, D-6, D-7, D-8, C-5, C-6, and C-8
- Goodnews River, North Fork:
A-7, B-5, B-6, and B-7
- Goodnews River, Middle Fork or Kukaktlim/Kukaktlik:
A-6, A-7, B-4, B-5, and B-6
- Togiak River:
C-2, C-3, B-2, B-3, B-4, A-4

Note: Some maps show only a short portion of the river
