

Union Slough

National Wildlife Refuge Hunting and Fishing Regulations 2020–2021

Welcome

Union Slough National Wildlife Refuge was established by an Executive Order in 1938, which designated this area as a migratory waterfowl refuge. The refuge encompasses 3,334 acres of marsh and upland habitat. The purpose of Union Slough National Wildlife Refuge is to provide refuge and breeding grounds for migratory birds and other wildlife. The name “Union” refers to the connection of two watersheds, the Blue Earth River and the east fork of the Des Moines River. Native Americans called this area Mini Akapan Kaduza, meaning “water which runs both ways.”
