

CITIZEN SCIENCE WORKSHOP

MAYFLY WATCH - CAPTURING MAYFLY PHENOLOGICAL DATA

Learn how to actively contribute to science through observation, recording, and participation. Help the U.S. Fish and Wildlife Service as they team up with the National Phenology Network and their citizen science data collection program called Natures Notebook. The workshop will teach you everything you need to know about becoming a successful Citizen Scientist, how to use Natures Notebook, and how to identify what you will be looking for. This workshop is intended for all age groups.

Date/Time: June 16, 2015 6:00 P.M. – 8:00 P.M.

Location: First Congregational Church, 161 W. Broadway, Winona, MN 55987

Telephone—507-494-6216

E-mail Cindy_Samples@fws.gov

Our Phenology Toolbox Includes:

- *Standardized Protocols and Species Profiles for status monitoring, which can be used independently of the Nature's Notebook online system*
- *Data entry tools: web-based and mobile apps for Android and iPhone*
- *Data Download Tool (www.usanpn.org/results/data) enables customized data download from the National Phenology Database*
- *Spatial and Temporal Visualization Tool to explore patterns in data*
- *Data Upload Tool (Coming soon) to bulk upload data in tabular format*
- *Data Analysis Guidance (Coming soon)*
