

United States Department of the Interior

FISH AND WILDLIFE SERVICE

Upper Mississippi River National Wildlife and Fish Refuge
51 E. Fourth Street - Room 101
Winona, Minnesota 55987

ATTENTION: Upper Mississippi River NW&FR Trapper

The submission of Fur Catch Reports is mandatory, even if you do not trap on the Refuge. Failure to accurately complete and return the report by the April 15 deadline may be sufficient cause for refusal of future permits. Eighteen trappers failed to do so last season, and thus will not be issued a Special Use Permit to trap on the Refuge this year.

The Refuge will provide three reminders before the April 15 deadline. This notice, to be given to each trapper when obtaining his/her Special Use Permit and trap tags, is one reminder. The District Office will send a postcard reminder around January 1, 2015. And the third reminder will be a postcard sent around April 1st by the Refuge Headquarters Office to notify trappers of the deadline.

It is extremely important that these reports are received on time to complete the annual Trapping Report and to collect accurate harvest data. The harvest data is used for management purposes and shared with the respective State agencies.

Do not mistake this mandatory report with harvest surveys that State DNRs send out.

If you are concerned about receipt of your Fur Catch Report, you are encouraged to mail it **Certified and with Return Receipt.**

If you have any questions, please feel free to contact Wildlife Biologist, Brian Stemper, at (507) 494-6221.
