

U.S. Fish and Wildlife Service

Habitat Day

*Come build
a bird house or
wood duck nest box*

WHEN: Saturday, April 13, 2013 from 12:00 noon - 4:00 p.m.

WHY: Learn about the wildlife and habitat of our area! Construct your own wood duck box or bluebird house to place outdoors for the benefit of these species (one per family). There will also be wren houses, robin roosts and new this year bird feeders. Come meet a live bald eagle and other raptors (birds of prey) and learn how their role in the environment is important to us all. A Wildlife Wizard will quiz children and adults on wildlife and habitat of the area! Everyone is invited, this is a **free** event!

TENTATIVE SCHEDULE OF EVENTS:

12 noon - 4:00 p.m. – Build your own bird house, view displays, and meet the Wildlife Wizard! Coloring books, posters and an assortment of wildlife related materials for kids and adults will be available.

1:00 – 2:00 p.m. – Presentation by The Raptor Center, St. Paul, MN with live birds

2:30 – 3:30 p.m. – Open discussion with The Raptor Center with birds on display

WHERE: Litchfield Wetland Management District office 22274 615th Avenue, Litchfield, MN. From the north, east or west, turn south on Highway 22 where it intersects with US Highway 12 in Litchfield. Go south 1 ½ miles, turn right on South Ripley Drive and then proceed 2.3 miles on South Ripley Drive/615th Avenue, turning left into the first driveway with a large brown entrance sign. If coming from the south on Highway 22, follow the brown U. S. Fish & Wildlife Wetland Office signs. Turn left at Highway 28, go one mile west, turn right onto 615th Avenue and go one-half mile into the second driveway with a large brown entrance sign. For more information call 320-693-2849.
