U.S Fish & Wildlife Service

# Necedah

*National Wildlife Refuge*

*Wildflower Checklist*

The large diversity of habitats at the Necedah National Wildlife Refuge allows for a wide variety of wildflowers. Overall, there are more than 1700 different species of wildflowers found in Wisconsin. This is a checklist of the known species that can be found on the Refuge. Bloom times are estimations, the actual bloom time varies based on weather conditions.

Bring your flower photos to the Nature's Discovery Area! Located by the Visitors Center on Headquarters road.

\*Denotes non-natives.
