*This map was produced by the Western Washington Office of the US Fish and Wildlife Office on 3/17/2006.*

***1) Note: Critical Habitat is designated in areas between the legal end points subject to exclusions. Due to the mapping limitations on these exclusions, some areas within dark blue have been excluded and are not designated Critical Habitat. To determine if a specific exclusion applies to a particular stream segment, refer to the exclusion narrative in the Federal Register notice ( 70 FR 56212; September 26, 2005). Available at http://www.fws.gov/pacific/bulltrout***

***2) Designated Critical Habitat in Marine waters extends from Mean High High Water, offshore to a depth of 33ft (10m) relative to the mean low low-waterline.***
