

MAP REPORT FORM

Scale 1:100,000

Map Name: Fort Dodge NE State(s): IOWA

MAP PREPARATION

Photography Used:

	<u>Emulsion</u>	<u>Scale</u>	<u>Date</u>	<u>Percent Coverage</u>
1.	CIR	1:58,000	<del>7-28-84</del> 10-23-84	22%
2.			5-15-83	43.5%
3.			5-23-83	12.5%

Field Check Dates:

1. 2-18-87
2. 2-20-87
- 3.

Contractor(s) for Photo Interpretation:

1. South Dakota Cooperation Fish & Wildlife Research Unit  
Box 2206 SDU. Brookings SD 57007.
- 2.
- 3.

Collateral Data Used:

1. USGS 7.5' quadrangle maps
2. USGS 1:250,000 map for the Fort Dodge NE.
3. USES Water Resource Data ; Iowa 1983.
4. USDA SCB Soil Surveys.
- 5.
- 6.
- 7.
- 8.

## GEOGRAPHY

### General Location:

42°30' - 43°00' N. latitude

94°00' - 95°00' W. longitude

### Bailey's Ecoregion Classification and Description:

1. Tall Grass Prairie Province, Bluestem Prairie Section

2.

3.

4.

USER CAUTION

The map document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified on the photographs based on vegetation, visible hydrology, and geography in accordance with Classification of Wetlands and Deep Water Habitats of the United States (An Operation Draft) Cowardin, et al., 1977. The aerial photographs typically reflected conditions during the specific year and season when they were taken. In addition, there is a margin of error inherent in the use of aerial photographs. Thus a detailed on-the-ground and historical analysis of a single site may result in revision of the wetland boundaries established through photographic interpretation. In addition, some small wetlands and those obscured by dense forest cover may not be included on the map document.

Federal, State, and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either design or products of this inventory, to define limits of proprietary jurisdiction of any Federal, State, or local government or to establish the geographical scope of regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State, or local agencies concerning specific agency regulatory programs and proprietary jurisdictions that may affect such activities.

Additional information regarding this map or other National Wetland Inventory activities may be obtained by contacting:
